Dear Eclipse Trading Team,

I am excited to apply for the Graduate Trainee position in Hong Kong. As a driven and tenacious Mechatronic Engineer and Computer Scientist, I design and develop complex systems. I am passionate about pushing beyond classrooms to find creative solutions.

I am drawn to the Frameworks team and their work in stream processing with Kafka and Kafka Streams. I am confident that my skills in Java programming and data analysis will be an excellent fit for this team. I am eager to learn and contribute to your ongoing greenfield projects.

Thank you for considering my application. I look forward to discussing my candidacy with you further.

Sincerely,

Jawad Tanana
